

Platinum Warranty Plan

We've got you covered!

When you join Buy-a-Warranty, you get our Platinum Plan as standard - giving you top-level protection with:

***All mechanical & electrical parts covered**

Labour costs included

Fault diagnostics included

Consequential damage cover

Trusted repair centres or choose your own

Your cover begins immediately

If it breaks, we'll fix it!

Your journey matters - we're with you all the way.

Comprehensive Protection

Mechanical and electrical breakdown coverage for critical and additional vehicle components

Simple Claims

Straightforward processing with minimal paperwork

Efficient Support

Timely assistance when mechanical and electrical issues arise

 **Customer service: 0330 229 5040**

 **Claims line: 0330 229 5045**

buyawarranty

Reliable cover for Cars, Vans, SUVs and Motorcycles

1. Petrol & Diesel

Traditional combustion engines

2. Hybrid/ PHEV

Petrol and diesel engines with an electric motor

3. Electric EVs

Fully electric vehicles powered only by battery

4. Motorbikes

Petrol, diesel, hybrid and EV motorcycles

buyawarranty

Understanding your mechanical & electrical extended warranty

Enhanced Coverage

This warranty provides cover for your vehicle's parts and components in the event of a mechanical or electrical breakdown. Our Platinum plan offers **the most comprehensive level** of protection available.

Labour

Labour costs are covered up to your selected labour rate.

Unlimited Claims

Make an **unlimited number of claims throughout your warranty period** on most plans. Each approved repair is covered up to your claim chosen limit. You can **claim up to the value of your vehicle** during the lifetime of your warranty

Consequential Damage Coverage

This plan **includes** cover for consequential damage, meaning if a covered part fails and directly causes damage to other components, those repairs are also included - provided the original failure was of a part listed in your policy.

Vehicle hire and recovery

Vehicle Hire, Vehicle recovery and additional coverage within the EU on select plans. See further details in this document

1. Petrol & Diesel (Combustion) Vehicles

Car, Van and SUV cover

[buyawarranty](#)

Engine & Turbo Unit

Engine

All components within the cylinder block and head, including:

- Pistons and rings
- Crankshaft
- Big end bearings
- Manifolds
- Rocker assembly
- Timing chains and gears

Excludes: Dual mass flywheel

Turbo Unit

All components, including:

- Inlet and exhaust turbine shafts
- Bearings and bushes
- Wastegate devices
- Turbo cover ends when the vehicle reaches 7 years of age or 80,000 miles - whichever comes first.
- If a new turbo has been fitted, this may be considered for continued cover, provided a valid receipt is supplied.

Emissions control (EGR system)

Includes EGR valve, EGR cooler, EGR actuator or stepper motor, EGR control solenoid, EGR position sensor and associated EGR pipes (excluding hoses)

- Includes protection only for sudden and unforeseen mechanical or electrical failure
- Excludes failures caused by carbon or soot build-up, contamination or blockage
- Excludes cleaning, de-carbonising or similar maintenance operations
- Excludes damage resulting from modified, removed or non-manufacturer-approved emissions equipment

Transmission Systems

Gearbox

All components within manual or automatic transmissions, including:

- Gears
- Bearings
- Clutches

Clutch

All components, including:

- Clutch plate
- Clutch cover
- Thrust/release bearing

Note: Limited to one clutch repair during the warranty period

Differential

All components, including:

- Gears
- Pinions
- Bearings
- Shafts

Drive & Braking Systems

Drive Shafts

All components, including:

- Propshafts
- Drive shafts
- Constant velocity (C.V.) joints
- Couplings

Brakes

All components, including:

- Servo units
- Cylinders
- Valves

Steering & Suspension

Steering

All components, including:

- Power steering units
- Rams
- Pumps
- Reservoirs
- Steering box

Suspension

All components, including:

- Control arms
- Bushings
- Ball joints
- Pins

Bearings

All components, including:

- Wheel bearings
- Seals
- Hubs
- Flanges
- Where mechanical breakdown has caused sudden stoppage of function

Climate & Cooling Systems

Air Conditioning

All components, including:

- Compressors
- Pumps
- Reservoirs

Cooling System

All components, including:

- Radiator (excluding external damage)
- Matrix
- Water pump
- Head gasket
- Thermostat

Ventilation

All components, including:

- Heater assembly
- Vents
- Tubes
- Controls

Electrical & Fuel Systems

E.C.U.

All components, including:

- Solid state control units
- Triggering units
- Distributor
- Coil

Electrics

All components, including:

- Motors
- Solenoids
- Relays
- Alternator
- Starter motor
- Switches
- Computers

Fuel System

All components, including:

- Fuel pump
- Sender units
- Gauges
- Air flow meters

Consequential Damage Cover

Consequential damage is when one covered part fails and causes damage to another part of your vehicle. It's the "knock-on" effect that can quickly turn a minor issue into a much larger, more expensive repair.

What Consequential Damage Means

Imagine a small, covered part unexpectedly stops working. If this failure then directly causes a different, healthy part to break or get damaged, that secondary damage is what we call "consequential damage".

How It Protects You

Our Consequential Damage Cover is designed to shield you from these escalating repair costs. If a covered part fails and, as a direct result, damages another part, both the initial failed part and the subsequent damage are covered. This means greater peace of mind, knowing that a single component failure won't lead to an entirely new, expensive problem out of your pocket.

Common Examples

Water Pump Failure: If your water pump (a covered component) fails, it can cause your engine to overheat. Without this crucial coverage, you might only be covered for the water pump, leaving you to pay for the extensive engine damage caused by the overheating.

This coverage ensures that a small problem doesn't escalate into a massive financial burden, providing you with greater peace of mind.

Additional Covered Components

Locks

All components, including:

- Regulators
- Handles
- Locks
- Catches

Excludes: Accidental damage

Seals

All major oil seals and gaskets

Casings

Covered if damaged by any of the listed parts

Convertible powerhood

- Motors that move the roof
- Hydraulic parts (if your roof uses fluid pressure)
- Buttons, switches and wiring
- Sensors and control units
- Roof locking system
- Seals that keep out water
- Metal frame parts (if they fail due to a fault)

What's Not Covered:

- Damage from forcing the roof open or closed
- Wear and tear on the roof fabric
- Problems caused by custom modifications
- Leaks due to poor maintenance or accidents

Exclusions

The following items are specifically excluded from coverage under the Platinum Vehicle Cover:

Vehicle Components

- Cylinder head cracks and porosity
- Dual mass flywheel systems
- Wiring harnesses and looms
- General extension components to excluded items

Damage & Maintenance

- Damage caused by: Frost, Overheating, Lack of anti-freeze
- Normal maintenance items
- Periodic replacement parts
- Normal wear items

Additional Systems

- Alarms and immobilisers
- Non manufacturer approved parts
- Customised parts

Emissions control exclusions (EGR system)

- Excludes failures caused by carbon or soot build-up, contamination or blockage
- Excludes cleaning, de-carbonising or similar maintenance operations
- Excludes damage resulting from modified, removed or non-manufacturer-approved emissions equipment

These items are excluded simply because they almost never fail due to a sudden mechanical fault, and removing them keeps your plan focused on the parts that genuinely matter. By only excluding low-risk components, we're able to keep your premium affordable while still giving you exceptional, comprehensive protection on the major parts most likely to fail.

2. Hybrid and PHEV Vehicles

Car, Van and SUV cover

📌 Alongside the parts shared with petrol and diesel engines, you're also covered for the following:

buyawarranty

Engine & Transmission Coverage

Engine

All Components contained within the cylinder block and head (excluding cracks and porosity).

Transmission

All components contained within the transmission assembly.

Drive & Fuel Systems

Final drive

All components including differential assembly and driveshafts.

Fuel system

All components including fuel pump, tanks sender unit and injectors, excludes filters and damage caused as a result of poor quality and/or contaminated fuel.

Electric Motor Components

Motor(s)

All components contained within the motor assembly including rotor, bearings, ator and brushes (excluding wear).

All components including power control units for electric drive and communicators.

Motor power supply

All components including slip rings and high voltage connector.

Motor control

All components including slip rings and high voltage connector.

Battery System Coverage

Battery system*

All components including battery charger and control unit. Excludes failure due to degradation or degradation of battery cells – up to 80,000 miles or vehicle age of 10 years excluding batteries not related to the vehicles drive system; such as normal car batteries and auxiliary batteries.

*Limited only to the replacement of individual battery cells up to a value of the claim limit

Electrical & Steering Systems

Ancillary electrics

All components including control units, motors, switches.

Steering

All components including rack, column motor assembly and hydraulic units.

Braking & Suspension

Braking system

All components including sensors, switches, control units, hydraulics and any energy harveing syem. Excludes brake discs and pads.

Suspension

All components including springs, torsion bars, ball joints and arms.

Cooling & Climate Control

Battery/Motor Cooling syem

All components including radiators and coolant tanks. Excludes hoses and pipes.

Climate control/heating

All components including heat pump and air conditioning syems.

Locks & Security

Locks

All major locks – Excludes accidental or malicious damage.

Exclusions

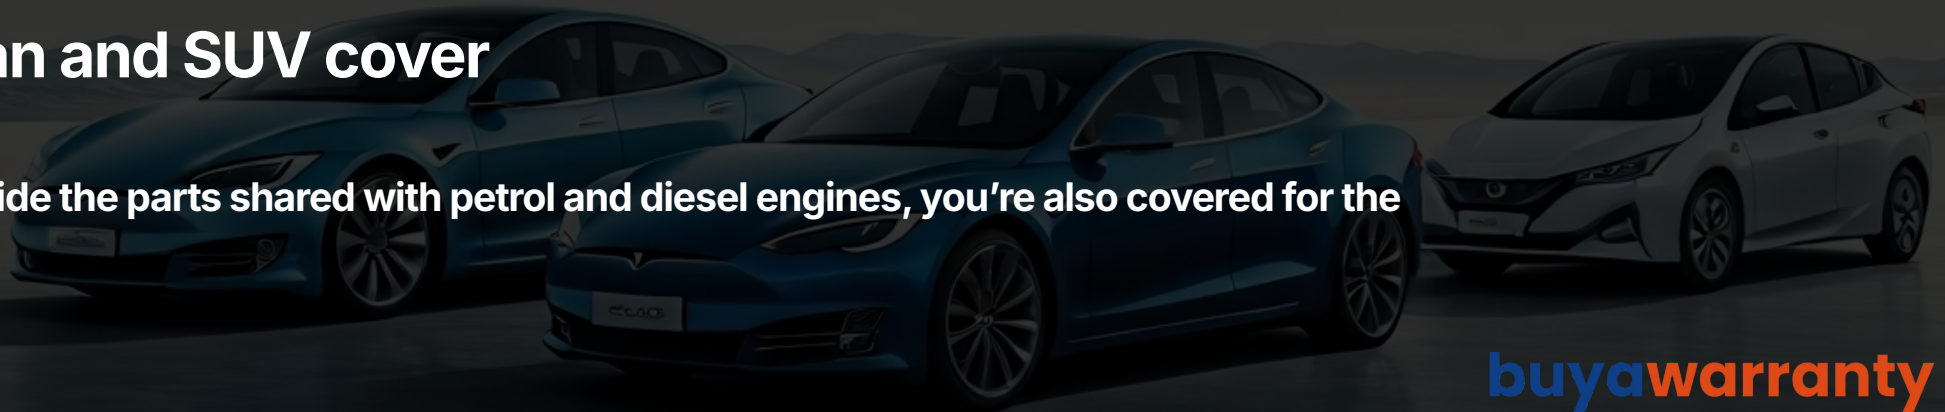

Damage to batteries caused due to environmental conditions, Battery degradation, discharge/fast acting/fa charge related damage, normal maintenance items such as; but not limited to; brake discs, pads and tyres, conventional car batteries and auxiliary batteries.

3. Electric Vehicles (EVs)

Car, Van and SUV cover

📌 Alongside the parts shared with petrol and diesel engines, you're also covered for the following:

buyawarranty

What's covered?

Motors and related components

Motor(s)

All components contained within the motor assembly including rotor, bearings, stator and brushes (excluding wear).

Motor power supply

All components including slip rings and high voltage connector.

Motor control

All components including power control units for electric drive and communicators.

Battery and Related Components

Battery system*

All components including battery charger and control unit, for up to 8 years/100,000 miles.

Excludes failure due to degradation or degradation of battery cells and batteries not related to the vehicle's drive system (such as normal car batteries and auxiliary batteries).

Battery/ Motor Cooling system

All components including radiators and coolant tanks. Excludes hoses and pipes.

Climate control/ heating

All components including heat pump and air conditioner.

Ancillary Electrics

Ancillary Electrics

All components including control units, motors, switches.

Steering

All components including rack, column motor assembly and hydraulic units.

Braking system

All components including sensors, switches, control units, hydraulics and any energy harvesting system. Excludes brake discs and pads.

Suspension

All components including springs, torsion bars, ball joints and arms.

Additional Coverage & Exclusions

Locks

All major locks are covered, excluding accidental or malicious damage.

Battery Exclusions

Excludes damage to batteries caused by environmental conditions, battery degradation, and discharge/fast charge related damage.

Maintenance Exclusions

Excludes normal maintenance items such as; but not limited to; brake discs, pads and tyres, conventional car batteries and auxiliary batteries.

4. Motorbikes

Petrol, EV and hybrid motorcycle cover

[buyawarranty](#)

Engine Coverage

Cylinder head (excluding cracks), all internal bushes, camshafts and followers, cylinder bores, crankshaft and bearings, cylinder block or barrels crankcase assembly, cylinder head gasket, push rods, gudgeon pins, connecting rods and bearings, flywheel, oil pump, tappet gear, pistons and rings, timing gears, chain and belts (breakage only), valves and guides, excluding burnt out valves, decarbonising and reseating.

Transmission & Cooling Systems

Gearbox

Manual and automatic internal breakdown of any mechanical parts, including gears, selector shafts and forks, bearings and bushes, excluding all external linkages and kickstart.

Cooling System

Water pump, thermostat, thermostat housing, radiator, oil cooler, fan, (excluding belts, all ancillaries and damage caused by impact or frost).

Mechanical Components Coverage

Swinging Arm Unit

All bushes and components within the swinging arm unit (excluding dampers).

Clutch

Mechanical breakdown, excluding wear and tear.

Instruments

Speedometer head. (Mechanical failure only)

Electrical & Drive Systems

Electrical

Starter motor, alternator/generator, rectifier. Excluding external wires and terminals.

Ignition

C.D.I. unit.

Final Drive Unit

Driveshaft, universal joint, bearings and gears, (excluding chains, belts sprockets and rubber couplings).

Suspension & Braking Systems

Suspension

Rear suspension unit, loss of fluid, pressure or mechanical breakdown of the suspension joint.

Front Telescopic Forks

Loss of fluid, pressure or mechanical breakdown of the suspension spring.

Brakes

Brake master cylinder and calipers including internal components, pistons, seals (excluding corrosion or wear and tear).

Casings

Covered if they have been damaged by the breakdown of one of the parts covered.

Additional Coverage Areas

Frame/Exhaust System

Failure of structural members, excluding that caused by impact or corrosion.

Oil Leaks

Leaks that require the removal of the engine, gearbox or final drive in order to effect a repair.

Motorbikes and Scooters Covered

Type	Description
Standard Motorbikes	Road-legal motorcycles used for personal or commuting purposes
Scooters (Petrol/Electric)	Small-capacity scooters (typically up to 125cc or equivalent electric models)
Touring Bikes	Motorbikes designed for long-distance travel
Cruisers	e.g. Harley-Davidson-style bikes intended for standard road use
Commuter Bikes	Lightweight, commonly used daily road bikes
*Electric Motorbikes/Scooters	*Please see our EV vehicle plans

Eligibility Criteria:

- Mileage under 60,000 miles at the start of the warranty
- Vehicle age under 15 years at the start of the warranty

Motorbikes and Scooters Excluded

Type	Description
Off-road / Motocross Bikes	Not designed for road use
Quad Bikes / ATVs	Not classified as motorbikes or scooters for warranty purposes
Track / Racing Bikes	High-performance vehicles not intended for standard road use
Custom Builds / Modified Bikes	Non-standard specifications
Bikes used for Hire or Reward	Includes delivery services (e.g. Uber Eats, courier use)

- Must be **UK registered**
- Must be **road legal**
- Must be in **regular use**

Explore optional extras

Add-on options designed to enhance your journey

[buyawarranty](#)

Add-On options

Enhance Your Protection Package with our reliable add-ons. Available to add on the pricing page during checkout

Vehicle Hire Coverage

Stay on the move even if your vehicle is undergoing repairs. Enjoy the convenience of a replacement vehicle with up to £45 per day towards rental costs, ensuring minimal disruption to your daily life. Applicable if manufacturer's repair time exceeds 8 working hours, with prior approval from Buy a Warranty.

Breakdown Recovery Service

Experience true peace of mind knowing that help is always at hand. Our breakdown recovery service provides up to £60 per claim for roadside assistance, ensuring you're never stranded. Simply make a claim in the usual way for quick support.

European Travel Protection

Venture across Europe with confidence! Your coverage extends to key European countries for up to 60 days in any 12-month period. Explore the Schengen Area countries and more, including Belgium, France, Germany, Liechtenstein, Luxembourg, Monaco, Netherlands, Switzerland, Spain, Italy, Portugal, Austria and Norway, knowing you're protected.

Wear & Tear Protection add-on

Safeguard your vehicle against the inevitable effects of time and use. Our Wear & Tear Protection Package goes beyond standard warranties, offering comprehensive coverage for crucial components as they age, ensuring your vehicle remains reliable and your finances protected.

What's Included

- **Core Mechanical Parts:** Protection for essential engine, gearbox, differential, and drivetrain components not classified as consumables.
- **Unexpected Failures:** Coverage for mechanical breakdowns not caused by routine wear or scheduled servicing.
- **Premature Part Failure:** Guards against parts breaking down before their expected lifespan, saving you from costly surprises.
- **Critical Electrical Components:** Covers non-replaceable electrical parts like ECUs, sensors, and alternators.
- **Factory-Fitted Systems:** Protection for original systems that fail unexpectedly, beyond routine maintenance.

What's Not Included

- **Consumable Items:** Parts with a naturally finite life expectancy, such as brake pads, discs, clutch friction, tyres, and wiper blades.
- **Routine Service Items:** Parts requiring periodic maintenance like oil, filters, spark plugs, and timing belts (unless premature failure).
- **Maintenance-Related Issues:** Items identified for replacement during routine servicing or inspections.
- **Neglect or Misuse:** Failures resulting from a lack of maintenance, misuse, or neglect of the vehicle.

Comprehensive tyre protection add-on

Don't let unexpected tyre damage deflate your day or your wallet. Our comprehensive Tyre Protection plan offers unparalleled peace of mind, safeguarding you against the common hazards of the road. Drive confidently, knowing that from accidental punctures to malicious damage, your tyres are fully covered, keeping you and your vehicle moving.

Your Tyre Cover – What's Included

Generous Tyre Coverage

Receive up to £150 per tyre for each tyre that needs repairing or replacing. This generous limit ensures significant savings on unexpected costs.

Accidental Damage Protection

If your tyre is accidentally damaged, we'll cover the cost of repair or replacement, up to your claim limit. We've got you covered for those unforeseen bumps in the road.

Malicious Damage Security

Even if someone damages your tyre on purpose, you're covered. We'll take care of the repair or replacement cost, up to your claim limit. (A police report and crime reference number are required for this type of claim.)

Puncture Repair Benefits

We'll cover puncture repairs up to £50 per repair. You can claim for up to five puncture repairs and four tyre replacements per policy year, keeping you on track.

Roadside Assistance Contribution

If you need roadside help for any of the above covered incidents, we'll contribute up to £30 towards the cost, within your claim limit, so you're never stranded.

Vehicle modifications and eligibility

This section outlines how vehicle modifications can impact your warranty cover. For the purpose of this policy, a modification is defined as any alteration made to the vehicle after it left the manufacturer's factory, regardless of whether it was performed by you or a previous owner.

Modifications we accept

These modifications are generally acceptable and don't affect warranty if legal, safely installed, and don't influence the claimed failure:

- Cosmetic upgrades such as body kits, spoilers, trims or badges
- Alloy wheels and tyres within safe manufacturer limits
- Interior changes such as infotainment units, lighting, seats or accessories
- Tow bars and similar external accessories when fitted correctly
- Parking sensors, dash cams and non-invasive electrical accessories
- Road-legal lighting or exhaust upgrades that comply with UK standards

Note: If a covered component fails for a reason unrelated to these modifications, the claim will usually be honoured.

Modifications that may limit cover

Certain modifications can affect vehicle operation or place additional load on systems. If a modification contributed to the failure, that part of the claim won't be covered.

- Engine remapping, tuning boxes or ECU programming
- Turbocharger, supercharger or other performance-enhancing upgrades
- Lowered, raised or heavily modified suspension systems
- Aftermarket electrical rewiring, high-load audio systems or non-approved alarms
- Exhaust systems that exceed legal noise or emissions limits
- Oversized wheels or tyres outside manufacturer-approved tolerances

Note: If a modified component directly causes or contributes to a failure, that failure will be excluded.

Modifications not accepted

The following modifications are not accepted under any circumstances because they are unsafe, illegal or fundamentally alter the vehicle design:

- Removal or alteration of emissions control equipment (e.g., DPF or EGR removal)
- Illegal window tinting below legal light-transmission levels
- Straight-pipe exhaust systems that breach noise or emissions regulations
- Any modification that makes the vehicle illegal for UK road use
- Any structural change that compromises vehicle safety

Note: Failures linked to these modifications are not covered.

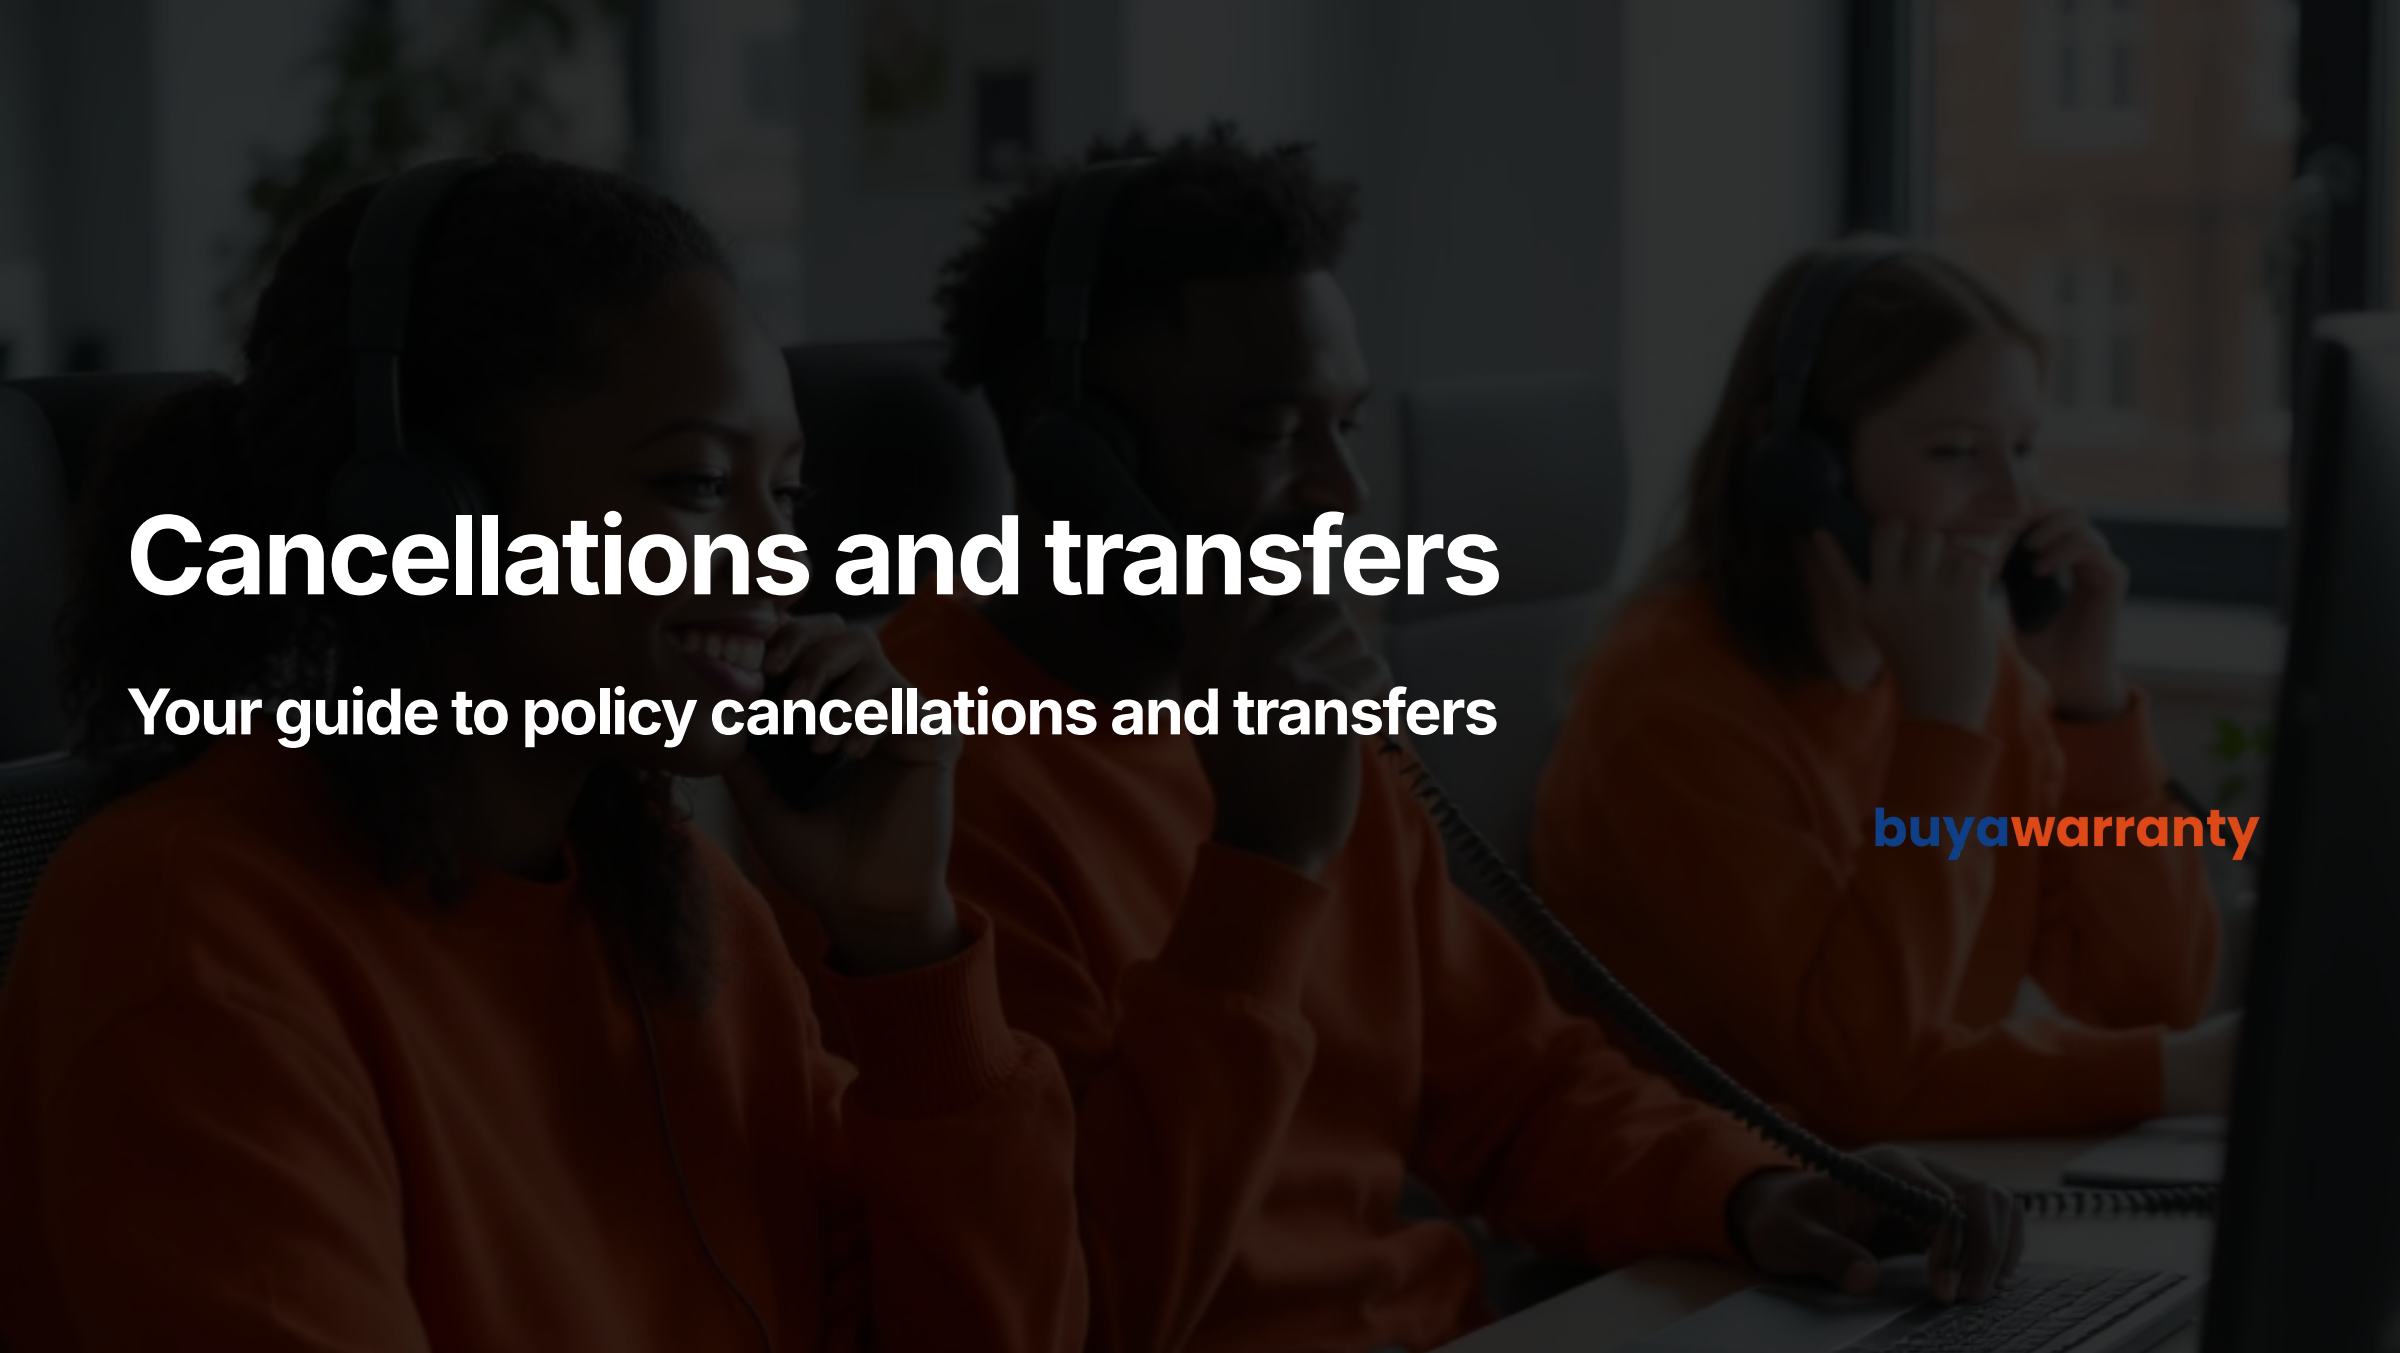

If the vehicle was purchased already modified

If your vehicle already had modifications before you purchased the warranty:

- All known modifications must be declared when taking out the policy
- Accepted modifications will not invalidate your warranty unless they cause the failure
- Undeclared modifications may affect eligibility or delay assessment of a claim

If you are unsure about a modification

If uncertain whether a modification affects cover, contact us before making a claim. We can confirm whether the modification is acceptable and whether it impacts eligibility please contact us on 0330 229 5040

Cancellations and transfers

Your guide to policy cancellations and transfers

buyawarranty

Cancellation rights

You can cancel your warranty at **any time**.

Before you cancel, here are some options:

Explore alternatives to cancellation that might better suit your needs and keep you covered.

Transfer Your Policy

Moving house or changing ownership? You might be able to transfer your policy to a new address or owner. Ensure continuous coverage without the need for a new policy.

Adjust Your Cover

Your circumstances changed? You could modify your policy to better suit your current needs, potentially saving money or increasing coverage. Review and update your policy details instead of cancelling.

Pause Your Policy

In certain situations, we may offer options to temporarily pause your policy if you don't require coverage for a short period. This can be useful if you're going away or have temporary alternative arrangements.

Within 14 Days

This period is also known as the 'Cooling-off period' and begins from the date you purchase your policy or the date you receive your policy documents, whichever is later.

Full Refund Entitlement

If you cancel your policy within the first 14 days, you are entitled to a full refund of any premiums paid, provided no claim has been made or is pending.

No Fees Charged

During this cooling-off period, no administration fees or cancellation charges will be applied for early termination of your policy.

Simple Process

The cancellation process is straightforward. Contact us directly at <https://buyawarranty.co.uk/cancel-warranty/>

After 14 Days

If you decide to cancel your policy after the initial 14-day cooling-off period, different conditions will apply.

Pro-rata Refund

You will receive a refund for the unexpired portion of your policy, calculated on a pro-rata basis for the remaining time your policy would have been active.

Applicable Fees

An administration fee may be applied to cover the costs associated with processing the early cancellation of your policy. This will be deducted from your refund.

No Refund After a Claim

If a claim has been started, assessed, authorised or completed during your policy term, you may not be entitled to a refund. Where claim work has been carried out, the value of that work will be deducted from any refund. If the value of the work already completed is greater than the remaining value of your policy, no refund will be due.

How to cancel your policy

To cancel your policy, simply visit our cancellation page and complete the form:

Contact Us Directly

Visit our dedicated cancellation page and fill out the form at: <https://buyawarranty.co.uk/cancel-warranty/>

We'll confirm your cancellation request within two working days.

Transfer of warranty option

This warranty is transferable should the vehicle be sold privately or you change your vehicle, subject to the approval of Buy A Warranty.

Email Request

Email us to make a transfer: support@buyawarranty.co.uk

Subject: Transfer of ownership

Transfer fee

Warranty documents

Transfer fee as per selected option during checkout or bought during the warranty cover period.

Vehicle Details

Full vehicle details including mileage at the time of sale will be needed and full name and address of the new owner. There is no additional charge for vehicles of the same category. If the vehicle is of a different category for example the new owner has a premium vehicle, there may be an extra fee.

For assistance please email: support@buyawarranty.co.uk with transfer details

Making a claim made easy

No jargon, no hassle - just straightforward help when you need it.

[buyawarranty](#)

Claims without complications

Step 1

Vehicle Diagnosis

Book your vehicle with a local independent repair agent for a complete diagnosis of the issue.

Contact Before Repairs

Once diagnosis is complete, but **before any repairs begin**, your repairer must contact our team for authorisation on our claims line or via email claims@buyawarranty.co.uk

Visit Our Claims Section

Begin the process by visiting our dedicated claims section online at www.buyawarranty.co.uk/make-a-claim

Making a Claim Faster: Steps 2 & 3

2. Claim Review & Authorisation

- Our team speaks directly with your repairer
- We gather repair details and confirm estimated costs
- Most claims reviewed within 90 minutes during working hours
- Costs beyond authorised amount are your responsibility

Important: No repairs should begin without our explicit authorisation.

3. Authorisation & Payment

- Approval sent via email to repairer
- Secure link provided for invoice and payment details
- Payment typically processed within 24 hours of receiving invoice

Why Choose a BuyaWarranty?

Not just protection - peace of mind, personal service, and perks that go the extra mile.

buyawarranty

What Makes Our Warranty Different

Rapid Response

Most claims reviewed within 90 minutes during business hours, with payments typically processed within 24 hours of invoice receipt.

Comprehensive Coverage

Protection for crucial mechanical components including engine, transmission, differential and essential electrical systems.

Direct Communication

Our team works directly with your repairer, creating a hassle-free experience when you need it most.

Thank you for choosing **Buy A Warranty!**
